- Indian research organizations are more active than companies in filing for patents
- Patents by research organizations and the herbal companies are on development of new processes for active compound isolation and standardization of such components in addition to new compositions for therapeutic use.
- Pharmaceutical companies such as Ranbaxy, Lupin and Panacea Biotec are increasingly patenting on herbal drugs.

Take Home Message

- If you want to go for MS, choose schools/colleges with funding or partial scholarships or in-state tuition fees
- Better choice would be MS-PhD integrated programs which offer full scholarship
- Most PhD programs offer full funding for entire PhD programs and B.Pharm students are eligible for direct PhD admissions
- Having a work experience in India/elsewhere before coming to US helps in securing a job after studies.
