TREE PLANTATION

When you plant a tree, you are not only planting a sapling but also hoping for the best. We have learned the hard way that trees are critical to our survival. We began by deforesting the earth to make room for more buildings. Later, when we saw the environment deteriorating, we were introduced to “afforestation,” a simple process of planting more trees for a better future.

The Social & Extension unit of the institute had organized Tree Plantation on Saturday, 29th July 2017 at Shirgaon Village. Then Mrs. Dipali B. Kanase, Sarpanch, Shirgaon addressed the students about the role of trees in human life. He also mentioned that we should take utmost care of environment. The villagers & students planted trees. These trees include Neem, Coconut tree, Pimple. Some students were assigned the task to give water and some were digging to plant trees. Villagers & students planted 70 trees from 11.30 am to 12.30 pm. Dr. R. Jadge, Mr. S. J. Sajane, Mr. R. A. Jagtap were present for the same.

So taking consideration of tree plantation our Shirgaon village was take a put forward to plant the trees in the village area on the guidance of Sarpanch & Panch committee.

To mark this event, the inaugural function was conducted at Shirgaon on Saturday, 29th July 2017 at 01.30 pm. Teaching and non-teaching staff, students and other peoples were present during the opening ceremony

TREE PLANTATION

When you plant a tree, you are not only planting a sapling but also hoping for the best. We have learned the hard way that trees are critical to our survival. We began by deforesting the earth to make room for more buildings. Later, when we saw the environment deteriorating, we were introduced to “afforestation,” a simple process of planting more trees for a better future.

The Social & Extension unit of the institute had organized Tree Plantation on Saturday, 29 July 2017 at Mirajwadi Village. Then Mr. Vipin Khot, Sarpanch, Mirajwadi addressed the students about the role of trees in human life. He also mentioned that we should take utmost care of environment. The villagers & students planted trees. These trees include Neem, Coconut tree, Pimple. Some students were assigned the task to give water and some were digging to plant trees. Villagers & students planted 70 trees from 11.30 am to 12.30 pm. Dr. Dr. R. Jadge & villagers were present for the same.

To mark this event, the inaugural function was conducted at Mirajwadi on Saturday, 29th July 2017 at 11.30 am. Teaching and non-teaching staff, students and other peoples were present during the opening ceremony.

The Social & Extension unit of the institute had organized Tree Plantation on Sunday, 29th July 2018 at Shirgaon Village. Then Mrs. Dipali B. Kanase, Sarpanch, Shirgaon addressed the students about the role of trees in human life. He also mentioned that we should take utmost care of environment. The villagers & students planted trees. Malaria and Dengue are vector-borne diseases. Dengue fever is the most common human arboviral infection globally, that is transmitted by *Aedes aegypti* and *Aedes albopictus* mosquitoes, and is the cause of more illness and deaths as compared to any other arboviral disease.

The frequency of outbreaks in India has risen with time. Malaria is prevented by mosquito avoidance measures and chemoprophylaxis, while dengue fever can be prevented only by mosquito avoidance measures. Malaria is treated by anti-malaria drugs. There are no specific therapeutic agents for dengue virus infection. In the absence of readily available vaccines, environmental management strategies along with personnel preventive measures can effectively reduce the burden of these diseases. Hence, to achieve best results in vector control, it is imperative to have active community participation through improved knowledge and health-promoting practices.

To combat the menace, members and students & villagers organized an awareness rally for dengue and malaria on 24th September 2019. The rally was organized in the college premises beginning from the college gate and passed through the main road and colonies in Ashta also. 138 students participate in this event. Students were holding Banners, Posters, Pamphlets with slogans like 'clean your surroundings', 'Mosquito net saves life', 'Prevention is better than cure' written on them to impart knowledge to people and make them aware about the

Name of the Event: Awareness Rally on AIDS Day.

Venue: Mirajwadi

No. of Participants: 190

World AIDS Day is observed annually on December 1st, creates awareness about the Aids pandemic caused by the spread of HIV infection. The theme for the 2019 observance is "Ending the HIV/AIDS Epidemic: Community by Community". In the college, 1st to 6th December was conducted as AIDS awareness week. Various activities were conducted through the Social & Extension unit. On 1st December principal Dr. R. B. Jadhav gave information about Aids, He told that HIV is spread primarily by unprotected sex (including anal and oral sex), contaminated blood transfusions, hypodermic needles, and from mother to child during pregnancy, delivery, or breastfeeding. Some bodily fluids, such as saliva, sweat and tears, do not transmit the virus.

Methods of prevention include safe sex, needle exchange programs, treating those who are infected, pre- and post-exposure prophylaxis, and male circumcision. Disease in a baby can often be prevented by giving both the mother and child antiretroviral medication. There is no cure or vaccine; however, antiretroviral treatment can slow the course of the disease and may lead to a near-normal life expectancy. Treatment is recommended as soon as the diagnosis is made. Without treatment, the average survival time after infection is 11 years. In collaboration with Grampanchayat of Mirajeadi various programmes were organized on 05th

The collection drive for this programme was held in the college premises. A wide range of books, from academic textbooks to story books, were collected. Volunteers installed the library in the school amidst great curiosity of the students. Our college's senior Librarian, Mr. Bhosale Sir supervised the installation procedure and ensured that all the children took interest and show enthusiasm towards this new facility that they were being provided with, he also donated some story and puzzle books.

The Principal of the school expressed her gratitude towards us for doing something which will benefit the children a lot in the long run. We tried to instil a habit of reading and did our bit towards igniting young minds.

After lunch, Plastic is everywhere and is contributing to the tipping of the Earth's climate. To control this, Prime Minister Narendra Modi launched Swachhata Hi Seva, a cleanliness initiative building up to Gandhi Jayanti on October 2nd with a call to action 'Say No To Plastic' and 'Make India Single-Use-Plastic Free'. ADCBP with the help and support conducted this campaign by spreading awareness regarding PLASTIC HATAV, DESH BACHAV to the residents of the adopted villages. 50 students and staff of ADCBP started the day by interacting with the students at Mirajwadi School at Mirajwadi. The school had around 120 students and 10-12 faculty members. The team made them understand the adverse effects of plastic on nature. The children and the faculty were very welcoming and interacted with a lot of enthusiasm.

Voluntaries told us their views on saving nature and all they knew about plastic. Villagers promised us to keep their village plastic-free and encourage their families to go plastic-free as well. Cloth bags were distributed to each student and faculty and collected back as many plastic bags, plastic bottles, and plastic items as possible from the school, village & also plastic material is collected from home to home by students. Students were educated on how to recycle plastic and gave them all cloth bags so they can use them instead of plastic bags when they go out to buy something.

After that, the volunteers conducted a sports day for the students in the school of Mirajwadi. The children were clubbed according to their classes and fun and adrenaline-pumped events like sprint, 3- legged race and bunny-hop race were carried out. The winners were given gifts while all the students were given chocolates. The day concluded with an hour of sports and a short meeting after dinner to discuss about the following day's schedule.

The sun shone brightly but so did the children and with their tired but happy faces.

Following that was the dance, story and street-play highlighting social issues like sanitation, blind-faith and education. This was received with an overwhelming response by the students. The Principal was satisfied with the relentless service of the volunteers and expressed her gratitude towards them. DAY 06

The day started at 06:00 am, when all the campers go to gather to for around of morning exercise which helps them get set for the day's hectic schedule! After breakfast at 07.00 am, volunteers assembled and had their duties for the day allotted. One of the team departed for further completing the wall painting at Ganesh Chowk. They carried out their task highly effectively, nearly completed the painting. Once they were done, all the campers set out towards Mirajwadi, where they would be taking on their most challenging task yet.

The road in Mirajwadi, which we had selected was sweat here out at regular intervals. Hence the road was highly uneven and would cause great inconvenience to all the villagers and vehicles. This was where we carried out our Shramdaan. For four hours at a stretch, volunteers took the various roles required for successively carrying out.

One team collected soil & stone in baskets and passed it to the other team, who had created a human chain for passing on the soil-filled baskets. The third team was in charge of pouring, leveling and pressing the soil in the pits of the road. Another team had formed a human chain and would pass on the empty baskets back to the dirt pile for refilling. Working like a well-oiled machine, they were on toes digging and pressing for long hours until the road was mended. Constant refreshments in the form of biscuits and water were being constantly provided to the team to keep their energy levels high, and outcome efficient. After 4 hours, the target was met and our volunteers made their way back to the camp.

After lunch, the volunteers left towards the three spots where the holes were dug already the day before and continued the further process for solar lamp installation. The volunteers successfully installed three lamps at the end of the day.

We wouldn't have been able to carry out the day's active proceedings without the constant support of our team.

DAY 07

“Good things end. But memories last forever.”

Like all the good things that seem to end too soon, the last day of the camp was no different. At 07.00a.m. sharp, all the volunteers gathered for breakfast. After doing the final pack-up and thorough cleaning of rooms and the camp premises, the volunteers left for the day's tasks: installing the board for Mirajwadi's primary school, finishing the wall-painting and cleaning up the Mirajwadi.

The wall painting and board installation was over soon enough, and a sense of satisfaction was achieved seeing the impact our work had on the innocent children. Wasting no time, we reached the and cleaned up the area. Like the majority of waste everywhere, this beach too had plastic and other non-organic waste which needed to be disposed of properly. Volunteers were given bio- degradable bags and gloves to maintain self-hygiene. At around 11 a.m., the volunteers returned to the camp site. Brunch was served at 11:30, which was followed by the final meet an hour later. We were glad that we could be of help to the villagers of Mirajwadi, and hoped that the steps we took will guide the bright and better future. The immense satisfaction and pride it gave us can perhaps never be expressed in words. Extending selfless service to those who really need it made us realize the significance of today's Youth, and the role of NSS in the progress of our country.
