Dear Madam,

Student's satisfaction is one of the most important aspects of organizational performance that is most critical for the current and future success of the organization.

It is evident from the student feedback conducted on 29th July 2022 that your student satisfaction score is below 80% for HDT subject (T.Y. B. Pharm. Sem VI Batch D). This may leads to failure of some students in summative exam conducted by the university. Such failure has undesirable consequences which affect unique identity of the institute.

You are therefore directed to go through student's comments and weakness and rectify it.

Dear Madam,

Student's satisfaction is one of the most important aspects of organizational performance that is most critical for the current and future success of the organization.

It is evident from the student feedback conducted on 21st Nov 2019 that your student satisfaction score is below 80% for Industrial Pharmacy-I subject (T.Y. B. Pharm. Sem V Div A) and practical (Batch A and B). This may leads to failure of some students in summative exam conducted by the university. Such failure has undesirable consequences which affect unique identity of the institute.

You are therefore directed to go through student's comments and weakness and rectify it.

Thanking you
