<b>Metric No : 7.3.1</b>	<b>Portray the performance of the Institution in one area distinctive to its priority and thrust within 1000 words</b>

#### **Member of Health Care Team**

According to author Zig Ziglar, "Life is an echo." What you send out comes back, and what you sow, you reap. Hence, along with the thrust and priority of creating competent pharmacy professionals who efficiently contribute to the healthcare system of society and to the pharmacy profession, the Annasaheb Dange College of B. Pharmacy at Ashta also maintains its practises as a member of the healthcare team. Eventually, our organisation is not only provide quality education to produce knowledgeable, skilled pharmacists but also fulfil our duties towards society. At the current date, the thing that is most needed by society is a human values education, which should be inculcated in the young generation, and among the human values most essential is humanity. Our motto is "spread humanity," and for us, humanity means caring for and helping others whenever and wherever possible. Being an education institute in the pharmacy field, we feel that it is our prime responsibility to help society by taking care of its health.

#### **Educator for young healthcare team**

We consider our students to be messengers of society who reach and enlighten almost every member of society, directly or indirectly. Hence, through the regular teaching and learning process, we prepare them well to act as competent pharmacy professionals. Our consistent academic records reflect the efforts we made to shape the next generation of health care professionals. We also believe that educational institutes play a prime role in creating sensitive human beings. Henceforth, we organise several programmes to create awareness among students about various diseases and health challenges. To date, Annasaheb Dange College of B Pharmacy has organised 14 student awareness programs. The feedback received from students about such a programme confirms that it serves the purpose of enhancing the knowledge of students. Such knowledgeable and confident students participated in social awareness rallies organised by the institute and performed remarkably well.

Similarly, the villagers with whom our student has interacted expressed their positive views and appreciated his knowledge level. This supports our claim of being an educator for young healthcare teams.

### **Beacon of hope for solving health issues of society**

It is necessary to be always grateful towards society, in which we exist and grow endlessly; henceforth, the institute believes taking care of the health of society is its prime goal. Through various activities, help is delivered to society whenever it is needed. As per the survey of the local community and related studies, it was noted that several health issues arising in society are due to people's ignorance of the disease, its causative agents, and the incubation period of the disease. The local community struggles while fighting against vector-borne diseases such as malaria, dengue, etc. Hence, we conducted a special awareness session about dengue disease. In that session, aspects related to causes, prevention, diet, and herbal remedies for the treatment of disease were discussed. We conducted rallies in a local village to make people aware of diseases as well. To prevent the spread of Dengue fever, we released guppy fish into local water sources (lakes, wells, etc.) to eliminate mosquito larvae.

Another survey conducted by the Institute revealed that the local community is addicted to tobacco and related products. In order to fight against this issue, we conducted a special awareness programme for our students. Later on, these trained representatives spread awareness among society through means of counselling and street play. Due to tobacco and related products, oral health is much affected; hence, we organised a free oral health check-up camp for the community. Another example of an act of kindness by the Institute is the distribution of free medicines to the local community through the means of special health camps. To date, the institute has conducted 13 different activities to solve the health problems of society during the last five years. Along with such acts, the institute always focuses on the health and hygiene of society. This flashes light on our act of being a beacon of hope for solving health issues in society.

### Synchronising with the national health policy of 'Swasth Bharat'

The government of India has launched its plan for improving the health of its citizens, among which the key aspects are information about diseases, quitting tobacco for life, blood donation, Fit India, etc. We feel privileged to arrange a blood donation camp at our institute; every year we organise a blood donation camp to fulfil the need for societal health. As discussed earlier, spreading awareness about the disease is a regular practise of our institute, which also informs the nation's policy. Our students have secured prizes in the Government of India-supported Khelo India and Fit India movements. All these activities lead to a healthy society, which eventually complies with 'Swasth Bharat Abhiyan'. Along with health, hygiene is equally important, and our institute did remarkably well under the "Swachh Bharat Abhiyan" scheme. We have arranged several cleanliness drives in the local society; along with that, our campus also supports solid and liquid waste management, which also supports keeping a healthy environment.

Concerning the thrust and priority of creating competent pharmacy professionals, chosen by the institute, the facts presented and successes achieved denote progress in attaining the vision of the institute. Being the torchbearer for budding pharmacists, we always make them aware of their responsibilities as a member of the health care team. Our motto is to shape the present generation for tomorrow's better India.

### Data Verified by:

Criteria:7	Institutional Values and Best Practices
Key Indicator: 7.3	<b>Institutional Distinctiveness</b>
<b>Metric No : 7.3.1</b>	<b>Summary</b>

Following programs are conducted to showcase Institutional Distinctiveness

### 1. Member of Health care team

Sr. No.	Name of Program	Date of program	No. of Participants
1.	Help to flood affected people	19 <sup>th</sup> Nov, 2019	150
2.	Dengue Awareness Program	20 <sup>th</sup> Aug, 2021	152
3.	Azadi Ka AmritMahotsav , Cleanliness Program	02 <sup>nd</sup> Oct, 2021	302
4.	Guest Lecture on World Mental Health Day	11 <sup>th</sup> Oct, 2021	116
5.	Azadi Ka AmritMahotsav, Health Check-up Camp	09 <sup>th</sup> - 10 <sup>th</sup> Dec, 2021	126
6.	Vaccination Drive	09 <sup>th</sup> - 10 <sup>th</sup> Dec, 2021	65
7.	Vaccination Drive (Age 15 to 18 Year)	6 <sup>th</sup> - 7 <sup>th</sup> Jan, 2022	192
8.	Donation Of Food material to labour (Executive director Sir's Birthday)	13 <sup>th</sup> Mar, 2022	125
9.	AKAM - World Health Day (Blood Donation Camp)	07 <sup>th</sup> April, 2022	193
10.	Blood Donation Camp	07 <sup>th</sup> Jul, 2022	164
11.	World Pharmacist Day (Blood Donation Camp)	25 <sup>th</sup> Sep 2022	50

### 2. Educator for young healthcare team

Sr. No.	Name of Program	Date of program	No. of Participants
1.	Dengue Awareness Program	20 <sup>th</sup> Aug, 2021	152
2.	Online Quiz on International Alzheimer's Day	26 <sup>th</sup> Sep, 2021	214
3.	Online Quiz on International World Arthritis Day	12 <sup>th</sup> Oct, 2021	76
4.	Awareness for Vaccination	09 <sup>th</sup> - 10 <sup>th</sup> Dec, 2021	65
5.	Competition on World Cancer Day	04 <sup>th</sup> Feb, 2022	127
6.	Rally on World TB Day	24 <sup>th</sup> Mar, 2022	110

### 3. Beacon of hope for solving health issues of society

Sr. No.	Name of Program	Date of program	No. of Participants
1.	No Smoking Day	09 <sup>th</sup> Mar, 2022	136
2.	Rally on World Malaria Day	25 <sup>th</sup> Apr, 2022	95
3.	Guest lecture of World Asthma Day	04 <sup>th</sup> May, 2022	185
4.	Rally on World Mosquito Day	20 <sup>th</sup> Aug, 2022	162
5.	Quiz on World Alzheimer Day	21 <sup>th</sup> Sep, 2022	175
6.	Shivaji University Social Activity 'Health check-up camp'	18 <sup>th</sup> Mar, 2022	27
7.	Health and Hygiene Awareness program		All students

### 4. Synchronizing with the national health policy of 'Swachh Bharat'

Sr. No.	Name of Program	Date of program	No. of Participants
1.	AICTE Fit India Program	-	350
2.	NSS Camp at Mirajwadi	10 <sup>th</sup> to 16 <sup>th</sup> Feb, 2020	55
3.	NSS Special Camp at Mirajwadi	14 <sup>th</sup> to 20 <sup>th</sup> March 2022	65
4.	Shivaji University Social Activity 'Swachh Bharat, Samrudha Bharat'	31 <sup>st</sup> Mar 2022	More than 1500
5.	International Yoga day	21 <sup>st</sup> Jun 2022	292
